

C8: Search Bar Memory

Type	Priority	Estimate	References
Functional	Low	1 minute 30 seconds	None
Automation Type			
None			

Preconditions

The Search Bar has to be invoked and the Text Box with a "X" Button on the left side must be present.

Steps

1	Type the Key Words in the Text Box of the Search Bar (for example: Breaking Bad)	Provided Key Words are visible in the Search Bar Text Box.
2	Close the Search Bar by both pressing the "X" Button on the left side of the Search Bar or by pressing on the non-functional part of the Website	The Search Bar closes.
3	Reopen the Search Bar by pressing the Magnifying Glass Icon	The Key Words written in the Search Bar are saved after closing the Search Bar and are displayed after the Search Bar is reopened.
